What is the cost difference between a fulltime RN and a travel nurse? Apparently not much, according to a recent KPMG study.

In this webinar we will discuss the key findings of KPMG's 2011 U.S. Hospital Nursing Labor Costs Study and what it means for healthcare staffing firms. Based on a survey of 120 senior hospital executives in the United States, the study provides cost benchmarks and labor model analysis. Plus you will hear more on latest trends for healthcare staffing and get a sneak peek of topics and speakers for the Healthcare Staffing Summit.

This is a complimentary hour long webinar.
